

Privacy Policy & Terms of Use

Hi! This is where we keep our Privacy Policy and Terms of Use. It describes what information we collect through our mobile apps and a website, and how we use this information.

Our Privacy Policy was last updated on 1 July 2018.

We, Daniel Majar and Lukas Dubay, are independent developers who's main purpose is creating enjoyable quality apps for toddlers and kids to play & learn. We take children privacy very seriously!

Personal information

Personal information is any information that identifies a user as an individual. We don't collect any personal data with our children applications.

We may collect personal information on this website to help us improve our services. If you submit a feedback via e-mail or a website form, we may receive your email address and other information you provide related to your feedback. We use these information only to provide answer or support to you. We don't share your email address unless we have your express consent.

Non-personal information

Non-personal information is information that does not enable us to identify a user as an individual. We don't collect any non-personal information in our apps.

Advertising

Our kids apps don't contain any advertising banners. The free version of our app has links to the app store to buy a full version of the app.

The free version of the app may contain external links to the app's App Store page and both free and paid versions of the app may contain links to the apps' Facebook page.

Cookies

When you visit our apps' website, we may use cookies to improve the quality of our service by storing user preferences and tracking usage information. Most browsers allow you to disable cookies or set your browser to alert you when cookies are being sent to your computer. We do not use cookies in our apps.

Children's Online Privacy Protection Act ("COPPA")

Our apps' website and mobile applications comply with the Children's Online Privacy Protection Act ("COPPA"). We don't knowingly collect personal information from children under the age of 13, and if in the event that a user identifies himself or herself as a child under the age of 13 through a support request or through any feedback, we will not collect, store or use, and will delete in a secure manner, any personal information of such user.

Limitations of Liability

In no event will we be liable for special, incidental or consequential damages resulting from possession, access, use or malfunction of our services, including but not limited to, damages to property, loss of goodwill, computer failure or malfunction and, to the extent permitted by law, damages for personal injuries (physical, emotional or psychological), property damage, lost profits or punitive damages from any causes of action arising out of or related to these Terms of Use and Privacy Policy or the apps, whether arising in tort (including negligence) contract, strict liability or otherwise and whether or not we, our licensors, affiliates and partners have been advised of the possibility of such damages.

Because some states/countries do not allow certain limitations of liability, this limitation of liability shall apply to the fullest extent permitted by law in the applicable jurisdiction. This limitation of liability shall not be applicable solely to the extent that any specific provision of this limitation of liability is prohibited by any federal, state or municipal law, which cannot be pre-empted.

In no event shall our liability for all damages (except as required by applicable law) exceed the actual price paid by you for the use of my services or 1 US dollar, whichever less.

Changes

This Privacy Policy may be updated from time to time for any reason. We will notify you of any changes to this Privacy Policy by posting the new Privacy Policy at <https://www.learn-animals.com/privacy-policy-and-terms-of-use>. You are advised to consult this Privacy Policy regularly for any changes, as continued use is deemed approval of all changes.

Other terms and conditions

The name of the app 'Let's Learn: Farm Animals' and 'Let's Learn: Farm Animals Lite' do not mean that the kids will learn facts about farm animals, but it merely entails that the kids will learn what possible animals can be found on the farm and learn their respective animal sounds. The animals were given made up first names and cartoonish looks to enrich the enjoyment and story purpose of these apps. By installing and playing the apps you agree and accept these terms & conditions.
